

# Tescommerce

Sell globally from one store.

Physical products, digital downloads, and global checkout for creators and brands.

Website: <https://tescommerce.com/>

Contact: TBD

## Problem

Creators and small brands use fragmented tooling to sell globally.

- Current setup often combines multiple tools for storefront, checkout, and digital delivery.
- Cross-border tax, payout, and compliance flows add high operational overhead.
- Time-to-launch is slow for non-technical teams, delaying first revenue.

## Solution

One platform for storefront, checkout, digital + physical commerce, and payout operations.

- Drag-and-drop site builder with themes, sections, and live multi-device preview.
- Native support for digital files and physical products in one catalog.
- Stripe-powered checkout and platform-level global selling features.

## Why Now

Three shifts make this category timing attractive.

- Creator economy and micro-brands continue to globalize beyond local marketplaces.
- Payment infrastructure is API-first, enabling lean teams to ship robust checkout quickly.
- Sellers now expect low-code tooling and shorter time-to-first-sale.

## Market

Large and expanding opportunity at the creator + SMB commerce intersection.

- TAM: TBD (global SMB/creator commerce software spend).
- SAM: TBD (digital-first and mixed digital+physical merchants).
- SOM: TBD (12-36 month target segment and geography).

## Business Model

Subscription + platform fees with clear upgrade path.

- Starter: Free, up to 50 products, 5% platform fee.
- Growth: \$29/month, unlimited products, 0% platform fee.
- Pro: \$79/month with staff accounts, API access, advanced analytics.

## Traction

Early indicators from live product and beta merchant usage.

- Public site highlights: 50+ countries supported and <2 min average store setup.
- Public demo metrics snapshot shows active GMV signal (30d dashboard preview).
- Internal KPI details (MRR, growth, retention, logo customers): TBD.

## Go-To-Market

Target creators and small brands that need global commerce quickly.

- Primary wedge: fast launch + unified digital and physical product operations.
- Conversion path: free Starter onboarding to paid Growth/Pro expansion.
- GTM metrics (CAC, funnel conversion, payback): TBD.

## Competition

Competes against fragmented stack and point solutions.

- Alternative 1: Shopify + multiple add-ons for digital delivery and ops.
- Alternative 2: Sellfy/Gumroad with limits on full-store flexibility.
- Edge: faster setup, integrated workflows, and platform-level MoR capability messaging.

## Team

Execution team details to be finalized for investor version.

- Founders and operator backgrounds: TBD.
- Relevant domain track record (commerce/payments/product): TBD.
- Hiring plan for 12 months: TBD.

## Financial Plan (12-18 Months)

Targets and operating assumptions for next stage growth.

- Revenue trajectory and monthly burn plan: TBD.
- Milestones: product depth, paid merchant count, and retention benchmarks.
- Runway assumptions pre/post round: TBD.

## Fundraise Ask

Round details to be completed with internal targets.

- Amount: TBD | Instrument: TBD | Runway: TBD.
- Use of funds: product/engineering, GTM, and operations.
- Milestone by end of runway: TBD.
